## National Terrorism Advisory System Current Alerts

# **SITUATION SUMMARY**

## **Significant Weather**

- Red Flag Warning in effect from 1300 to 2300 today for areas in Alpine, Madera and Mono Counties

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An approaching cold front will bring wet weather to northern California today. A weak disturbance in the upper level flow will bring the possibility for more light rain on Friday. Dry weather will return late this weekend as a stronger ridge builds over the region resulting in warmer temperatures through early next week.

#### **San Francisco Weather:**

A late season cold front will move across northern California this evening into early Thursday. With this system, there is a slight chance of rain showers across the North Bay with drizzle possible southward down the coast. High pressure will then rebuild across the region Friday through early next week and will bring warming temperatures and dry conditions.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Cold frontal passage late today to bring strong winds over ridges and through Delta today into Thursday and a threat of showers and thunderstorms later today into Thursday. Flat ridge returns Friday with a warming trend over the weekend that will peak with well above normal temperatures Monday and Tuesday.

#### **Hanford Weather:**

Weak low pressure system will move in beginning today bringing breezy conditions along with a moderate cooling trend through Thursday. Temperatures will begin an upward trend though the weekend and into next week. Near record high temperatures will be possible by the middle of next week.

## **WEATHER SYNOPSIS BY REGION: (Cont.)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Weak high pressure will continue to bring warm temperatures and breezy northwest winds through Wednesday. A weak trough will pass through northern California Thursday, lowering temperatures a few degrees. Another high pressure system is expected to return with above normal temperatures over the weekend.

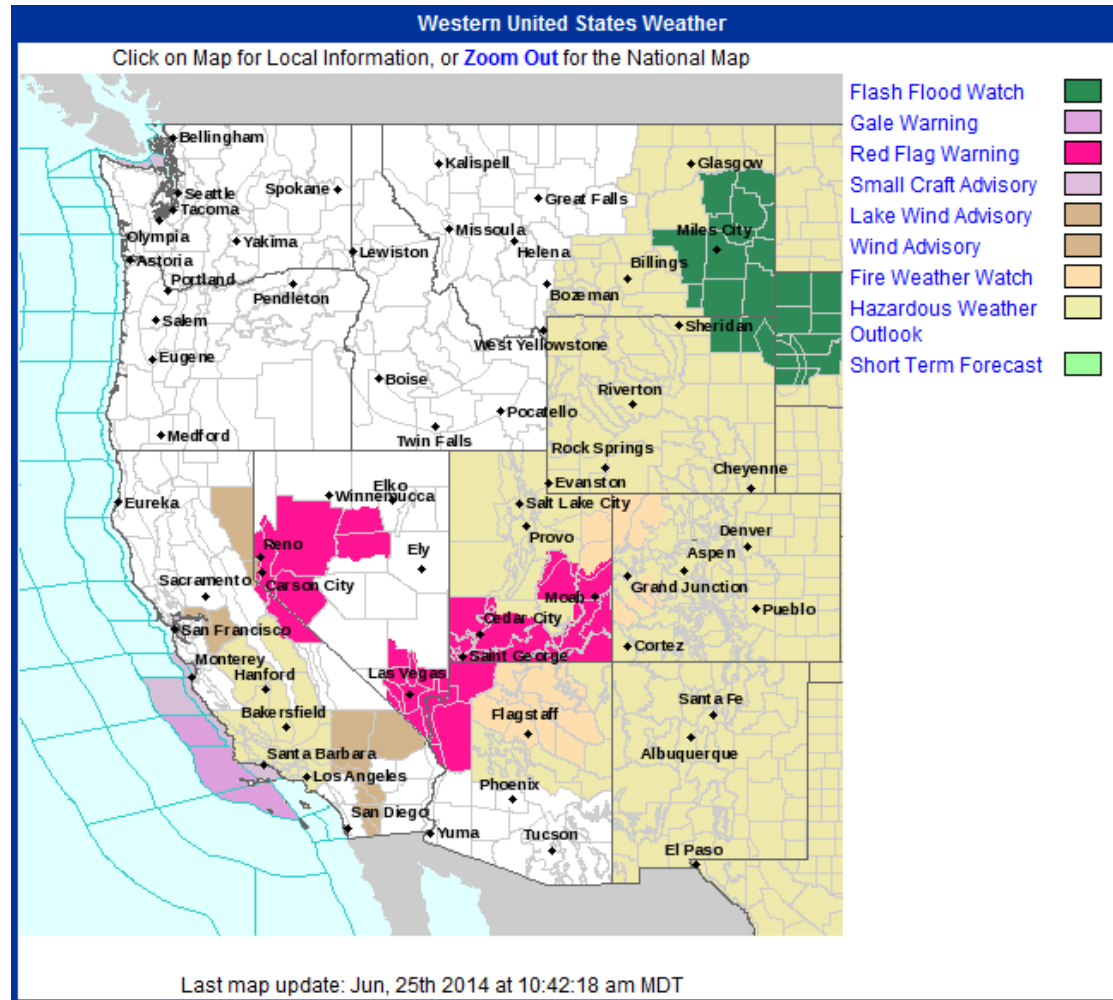

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

A weak transitory ridge will move over southern California today, bringing some minor warming to the inland areas. However, a trough of low pressure will move inland across California on Thursday and Friday, bringing some minor cooling to the region as well as a deeper marine layer west of the mountains and gusty west winds to the mountains and deserts. High pressure will then build over the region for this weekend and early next week, with more summerlike warmer weather to the southland.

#### **Southeast California Weather:**

A ridge of high pressure centered off the southern California coast will continue to bring dry westerly flow aloft, nearly cloudless skies and a persistence forecast for temperatures through Thursday. A weak pacific disturbance will move into the region Thursday, resulting in breezy to windy conditions and slightly cooler temperatures for Friday. A warming trend is expected by the weekend, with even warmer temperatures possible by next week as strong high pressure builds back into the region.

# CAL OES ACTIVATIONS

## Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

**\*\* As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\*\***

## Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

# U.S. Drought Monitor

## California

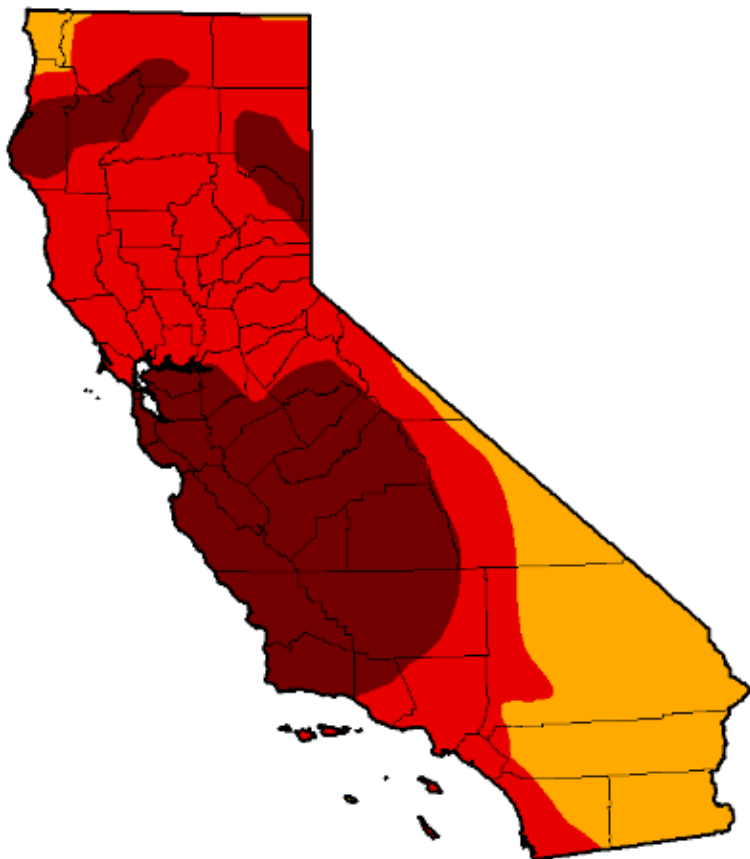

**June 17, 2014**

(Released Thursday June 19, 2014)

Valid 8 a.m. EDT

# **CAL OES MISSIONS**

## **New Cal OES Missions**

- **2014-LAW-3934**, IERCC reports a SPOT activation in Fresno County. 60 year old female who was hiking alone activated her SPOT device but they have been unable to contact her. Cal OES LDO coordinating resources. Update, 06/24/14 at 1433 hours: Fresno County, with the assistance of Mono County and a CHP helicopter, extracted the victim and flew her to a hospital in Mammoth for treatment of a unknown leg injury. **Mission Closed**

## **Ongoing Cal OES Missions**

- **2014-LAW-3930**, IERCC reports a SPOT activation in Tulare County. Device owner activated for his friend who was thrown from his horse yesterday and can't complete the 20 mile return trip. Cal OES LDO coordinating with Tulare County Sheriff's Department. Update, 06/24/14: Tulare County Sheriff was contacted, but because of the location of the incident and jurisdictional issues, Mono County Sheriff's Office accepted the mission. Mono tasked a CHP Helicopter to air lift the victim to a hospital in Lone Pine. The victim had multiple broken ribs and other internal injuries. **Mission Closed**

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
